Column subtraction with numbers over 10,000

Year 5. Subtract whole numbers with more than 4 digits using the column method.

Name: _____ Date: _____

1.
```
  52227
- 50877
-------
```

2.
```
  68230
- 42857
-------
```

3.
```
  89538
- 64857
-------
```

4.
```
  17380
- 11884
-------
```

5.
```
  74665
- 51283
-------
```

6.
```
  82799
- 77474
-------
```

7.
```
  96253
- 57179
-------
```

8.
```
  52786
- 12859
-------
```

9.
```
  79168
- 33601
-------
```

10.
```
  23148
- 12302
-------
```

11.
```
  81854
- 55227
-------
```

12.
```
  71912
- 55743
-------
```

Answer key: column subtraction with numbers over 10,000

Answers to every question on page 1.

1. 52227 - 50877 = 1350

2. 68230 - 42857 = 25373

3. 89538 - 64857 = 24681

4. 17380 - 11884 = 5496

5. 74665 - 51283 = 23382

6. 82799 - 77474 = 5325

7. 96253 - 57179 = 39074

8. 52786 - 12859 = 39927

9. 79168 - 33601 = 45567

10. 23148 - 12302 = 10846

11. 81854 - 55227 = 26627

12. 71912 - 55743 = 16169
